

Simplify Admissions. Start Every Resident Journey Right.

Digital Admissions & Patient Intake Software Built for
Skilled Nursing Facilities

From referral to room assignment, manage resident intake, documentation, eligibility,
and occupancy in one organized workflow.

Digital Registration • Document Management • Eligibility • Room Assignment • Occupancy

INTRODUCTION

Admissions are one of the most important operational workflows in a skilled nursing facility. Teams must collect resident information, manage documents, coordinate referrals, verify coverage, assign rooms, and keep occupancy information up to date.

When these tasks depend on paper forms, spreadsheets, emails, and disconnected systems, admissions can become slow, repetitive, and difficult to track.

LTC Apps brings the admissions workflow together in one connected platform.

Capture resident information, manage documentation, coordinate room and bed assignments, and connect admission information with downstream workflows all from one organized digital environment.

Built for the People Managing Admissions

SNF Administrators

Get better visibility into admissions, occupancy, and resident placement.

Admissions Teams

Reduce repetitive data entry and keep referral, documentation, and intake information organized.

Business Office Teams

Connect resident information with eligibility and billing-related workflows.

POWERING THE DAY-TO-DAY OPERATIONS OF YOUR SNF

From admissions to maintenance, LTC Apps gives every department purpose-built digital tools.

THE RESULT?

Less manual work.

Fewer disconnected processes.

Better operational visibility.

More time for resident care.

RESIDENT & REVENUE OPERATIONS

- Admissions & Patient Intake
- Eligibility Verification
- Medical Code Analysis
- Resident Appointments

PEOPLE & STAFFING

- Staff Scheduling
- Human Resource Management
- Staff Broadcasts

FACILITY & SUPPLY OPERATIONS

- Order & Inventory Management
- Hot Rack
- Maintenance
- Visitor Management

01. ADMISSIONS & PATIENT INTAKE

Turn Admissions Into a Digital, Organized Workflow

Replace paper-heavy intake processes with centralized digital admissions management.

LTC Apps helps your team capture resident information, manage documents, verify coverage, and coordinate room assignments from one workflow.

Key Features

- Digital patient registration
- Automated data entry and validation
- Referral and admission tracking
- Digital consent and document management
- Electronic signatures
- Room and bed assignment
- Real-time vacancy and occupancy tracking
- Insurance and eligibility checks
- EHR and system integration
- Compliance and documentation tracking

Why It Matters

Faster admissions. Better data accuracy. Smoother resident onboarding.

LTC Apps reports that its admissions workflow can reduce admission processing time and administrative burden by automating repetitive intake tasks.

BUILT FOR SKILLED NURSING. DESIGNED FOR SIMPLICITY.

Purpose-Built for SNFs

LTC Apps is designed around skilled nursing workflows, including SNF-specific disciplines, pay periods, eligibility requirements, admissions processes, and operational needs.

Modular by Design

Start with the modules your facility needs today.

One Connected Platform

Your teams can work from one system rather than managing disconnected tools for every department.

Designed for Small & Mid-Size Facilities

Get purpose-built operational software without having to adopt a massive enterprise platform.

Works Alongside Your Clinical EHR

LTC Apps is positioned as an SNF operations platform, not a replacement for a full clinical EHR. It can support the operational workflows that run alongside your existing clinical systems.

READY TO MODERNIZE YOUR ADMISSIONS WORKFLOW?

See LTC Apps Admissions & Patient Intake in Action.

Your admissions team shouldn't have to manage referrals, paperwork, resident information, eligibility, room assignments, and occupancy through disconnected processes.

LTC Apps brings the admissions workflow together in one purpose-built platform helping your team move from intake to placement with greater organization and visibility.
