

LTCApps
Long Term Care

Keep Every Resident Appointment Organized.

Resident Appointment Scheduling Built for Skilled Nursing Facilities

Coordinate resident appointments, maintain scheduling visibility, and keep your team aligned with one organized workflow.

Appointment Scheduling • Tracking • Coordination • Resident Information • Staff Visibility

INTRODUCTION

Resident appointments often involve more than simply choosing a date and time.

Your team may need to coordinate the resident, staff, transportation, appointment details, and follow-up information while keeping everyone aware of what's scheduled.

When appointments are tracked through paper calendars, spreadsheets, verbal reminders, or disconnected systems, important details can be difficult to find.

One Organized Workflow for Resident Appointments.

LTC Apps brings resident appointment scheduling and tracking into one centralized workflow, helping your team maintain better visibility and coordinate appointments more effectively.

- Automated data entry and validation
- Referral and admission tracking
- Digital consent and document management
- Electronic signatures
- Room and bed assignment
- Real-time vacancy and occupancy tracking
- Insurance and eligibility checks
- EHR and system integration
- Compliance and documentation tracking

Why It Matters

Faster admissions. Better data accuracy. Smoother resident onboarding.

LTC Apps reports that its admissions workflow can reduce admission processing time and administrative burden by automating repetitive intake tasks.

BUILT FOR SKILLED NURSING. DESIGNED FOR SIMPLICITY.

Purpose-Built for SNFs

LTC Apps is designed around the operational realities of skilled nursing facilities — including resident appointments, admissions, staffing, supplies, communication, and facility operations.

Modular by Design

Use Appointment Scheduling alongside the other LTC Apps modules that support your facility's specific workflows.

One Connected Platform

Keep resident information and operational workflows connected.

Designed for Small & Mid-Size Facilities

Get purpose-built operational software without having to adopt a massive enterprise platform.

Works Alongside Your Clinical EHR

LTC Apps is an SNF operations platform, not a replacement for a full clinical EHR. It supports operational workflows that run alongside your existing clinical systems.

READY TO ORGANIZE YOUR RESIDENT APPOINTMENTS?

See LTC Apps Appointment Scheduling in Action.

Your team shouldn't have to rely on paper calendars, scattered spreadsheets, or verbal reminders to keep track of resident appointments.

LTC Apps gives your facility an organized workflow for scheduling, tracking, and coordinating resident appointments helping your team maintain better visibility throughout the day.
