

Verify Coverage. Reduce Denials. Protect Reimbursement.

Medicare & Medicaid Eligibility Verification Built for Skilled Nursing Facilities

Verify resident coverage quickly, keep every verification on record, and give your billing team the information they need before claims go out.

Medicare Verification • Medicaid Verification • Coverage Status • Verification History • Admissions Integration

INTRODUCTION

Eligibility problems can become expensive when they are discovered after a claim is submitted.

When coverage is verified manually, billing teams may need to call payer lines, navigate separate portals, record results in spreadsheets, and search for previous verification records.

That creates unnecessary administrative work and increases the risk that a coverage issue is missed.

LTC Apps brings eligibility verification directly into your SNF's operational workflow.

Your team can run Medicare and Medicaid eligibility checks, receive a clear coverage status, and automatically retain a searchable record of each verification.

Built for the Teams Responsible for Reimbursement

SNF Administrators

Improve visibility into resident coverage and help reduce preventable eligibility-related denials.

Billing & Business Office Teams

Run eligibility checks without switching between separate systems or calling payer lines.

Admissions Teams

Verify coverage before a resident arrives and connect eligibility information with the admissions workflow.

POWERING THE DAY-TO-DAY OPERATIONS OF YOUR SNF

From admissions to billing, LTC Apps gives every department purpose-built digital tools.

THE RESULT?

Less manual work.

Fewer disconnected processes.

Better operational visibility.

More time for resident care.

RESIDENT & REVENUE OPERATIONS

- Admissions & Patient Intake
- Eligibility Verification
- Medical Code Analysis
- Resident Appointments

PEOPLE & STAFFING

- Staff Scheduling
- Human Resource Management
- Staff Broadcasts

FACILITY & SUPPLY OPERATIONS

- Order & Inventory Management
- Hot Rack
- Maintenance
- Visitor Management

02. ELIGIBILITY VERIFICATION

Verify Coverage Before Claims Become Problems

Give your billing team a faster way to verify Medicare and Medicaid coverage without constantly switching between systems or manually recording results.

Key Features

- Medicare eligibility verification
- Medicaid eligibility verification
- One-click verification checks
- MBI and resident information capture
- Instant coverage status
- Verification reference numbers
- Permanent verification history
- Searchable verification records
- Automatic connection with resident information
- Built directly into LTC Apps

Why It Matters

Verify earlier. Reduce surprises. Submit claims with greater confidence.

Eligibility Verification connects naturally with Admissions and Medical Code Analysis to create a more connected billing workflow.

BUILT FOR SKILLED NURSING. DESIGNED FOR SIMPLICITY.

Purpose-Built for SNFs

LTC Apps is designed around skilled nursing workflows, including SNF-specific disciplines, pay periods, eligibility requirements, admissions processes, and operational needs.

Modular by Design

Choose the workflows that matter most to your facility and add additional modules as your operational needs grow.

One Connected Platform

Eligibility Verification works alongside Admissions, Medical Code Analysis, Orders, Scheduling, and other LTC Apps modules.

Designed for Small & Mid-Size Facilities

Get purpose-built operational software without having to adopt a massive enterprise platform.

Works Alongside Your Clinical EHR

LTC Apps is positioned as an SNF operations platform, not a replacement for a full clinical EHR. It can support the operational workflows that run alongside your existing clinical systems.

READY TO TAKE CONTROL OF ELIGIBILITY VERIFICATION?

See LTC Apps Eligibility Verification in Action.

Your billing team shouldn't have to chase payer information, switch between portals, or search through spreadsheets to find a resident's coverage status.

LTC Apps brings Medicare and Medicaid eligibility verification into the same platform your team already uses for admissions and daily SNF operations.
