

Know What You Need. Where You Need It.

Order & Inventory Management Built for Skilled Nursing Facilities

Manage clinical, office, and maintenance supplies through one organized ordering workflow from request to receipt.

Supply Orders • Priority Management • Floor & Resident Assignment • Order Tracking •
Supplier Access

INTRODUCTION

A skilled nursing facility manages a constant flow of supplies.

Clinical supplies, office materials, and maintenance items need to be requested, prioritized, assigned, ordered, received, and tracked.

When orders are managed through paper forms, emails, spreadsheets, or informal requests, it can become difficult to know what was ordered, who requested it, where it belongs, or whether it has actually been received.

Bring Every Supply Order Into One Organized Workflow.

LTC Apps Order & Inventory Management helps teams manage supply orders while tracking category, priority, floor, resident, product, quantity, and order status.

Built for the People Managing Admissions

SNF Administrators

Get better visibility into supply activity, priorities, and order status across the facility.

Nursing & Clinical Teams

Request and track clinical supplies while connecting orders to the appropriate resident or location.

Maintenance & Office Teams

Manage maintenance and office supply requests alongside clinical orders.

POWERING THE DAY-TO-DAY OPERATIONS OF YOUR SNF

From resident operations to supply management, LTC Apps gives every department purpose-built digital tools.

THE RESULT?

Clearer supply ownership.

Better order visibility.

Fewer disconnected requests.

More organized facility operations.

RESIDENT & REVENUE OPERATIONS

- Admissions & Patient Intake
- Eligibility Verification
- Medical Code Analysis
- Resident Appointments

PEOPLE & STAFFING

- Staff Scheduling
- Human Resource Management
- Staff Broadcasts

FACILITY & SUPPLY OPERATIONS

- Order & Inventory Management
- Hot Rack
- Maintenance
- Visitor Management

- Priority levels
- Floor assignment
- Resident assignment
- Order status tracking
- Pending → Received workflow
- Product and quantity tracking
- Preferred supplier access
- Amazon quick access
- Medline quick access
- Adva Care quick access

Why It Matters

Reduce supply confusion and give every order clear ownership, priority, location, and status.

LTC Apps allows teams to manage three supply categories while tracking priority, floor, resident, and order status.

BUILT FOR SKILLED NURSING. DESIGNED FOR SIMPLICITY.

Purpose-Built for SNFs

LTC Apps is designed around the operational realities of skilled nursing facilities — including clinical supplies, resident needs, staffing, admissions, maintenance, and facility operations.

Modular by Design

Use Order & Inventory Management alongside the other LTC Apps modules that support your facility's workflows.

One Connected Platform

Connect supply management with the rest of your facility operations.

Designed for Small & Mid-Size Facilities

Get purpose-built operational software without having to adopt a massive enterprise platform.

Works Alongside Your Clinical EHR

LTC Apps is an SNF operations platform, not a replacement for a full clinical EHR. It supports operational workflows that run alongside your existing clinical systems.

READY TO BRING SUPPLY ORDERS UNDER CONTROL?

See LTC Apps Order & Inventory Management in Action.

Your facility shouldn't have to rely on paper requests, scattered spreadsheets, or informal conversations to know what supplies have been ordered and where they belong.

LTC Apps gives your teams a structured workflow for managing clinical, office, and maintenance supplies, while tracking priority, location, resident assignment, product, quantity, and order status.
