INTRODUCTION

Staff scheduling in a skilled nursing facility isn't simply putting names on a calendar.

You need to coordinate different disciplines, shifts, floors, rooms, pay periods, staffing levels, and employee availability while making sure your team knows where they need to be.

When schedules are rebuilt manually in spreadsheets or paper templates, small changes can create hours of additional work.

Build Your Master Schedule Once. Reuse It Across Pay Periods.

LTC Apps Staff Scheduling provides a 14-day master schedule workflow designed around SNF staffing, allowing facilities to create schedules across disciplines, shifts, floors, and departments and reuse them across pay periods.

Built for the People Managing Your Workforce

SNF Administrators

Get better visibility into staffing levels, schedules, and departmental coverage.

Directors of Nursing

Manage schedules across nursing disciplines, shifts, floors, and pay periods.

Department Managers

Coordinate staffing for areas such as housekeeping, laundry, front desk, and other facility departments.

POWERING THE DAY-TO-DAY OPERATIONS OF YOUR SNF

From staffing to resident and facility operations, LTC Apps gives every department purpose-built digital tools.

THE RESULT?

More organized schedules.

Better staffing visibility.

Less repetitive work.

A more coordinated workforce.

01. ADMISSIONS & PATIENT INTAKE

Turn Admissions Into a Digital, Organized Workflow

Replace paper-heavy intake processes with centralized digital admissions management.

LTC Apps helps your team capture resident information, manage documents, verify coverage, and coordinate room assignments from one workflow.

Key Features

- Digital patient registration
- Automated data entry and validation
- Referral and admission tracking
- Digital consent and document management
- Electronic signatures
- Room and bed assignment
- Real-time vacancy and occupancy tracking
- Insurance and eligibility checks
- EHR and system integration
- Compliance and documentation tracking

Why It Matters

Faster admissions. Better data accuracy. Smoother resident onboarding.

LTC Apps reports that its admissions workflow can reduce admission processing time and administrative burden by automating repetitive intake tasks.

BUILT FOR SKILLED NURSING. DESIGNED FOR SIMPLICITY.

Purpose-Built for SNFs

LTC Apps is designed around the operational realities of skilled nursing facilities — including disciplines, pay periods, floors, rooms, staffing requirements, resident operations, and facility workflows.

Modular by Design

Use Staff Scheduling alongside HR Management, Staff Broadcasts, Admissions, and other LTC Apps modules.

One Connected Platform

Staff Scheduling works within the broader LTC Apps platform alongside Human Resource Management, Staff Broadcasts, and other operational workflows.

Designed for Small & Mid-Size Facilities

Get purpose-built operational software without having to adopt a massive enterprise platform.

Works Alongside Your Clinical EHR

LTC Apps is an SNF operations platform, not a replacement for a full clinical EHR. It supports operational workflows that run alongside your existing clinical systems.

READY TO BUILD SMARTER STAFF SCHEDULES?

See LTC Apps Staff Scheduling in Action.

Your scheduling team shouldn't have to rebuild the same schedule every pay period.

LTC Apps gives your facility a structured 14-day scheduling workflow for managing disciplines, shifts, floors, rooms, staff assignments, headcount visibility, and schedule publishing.

Build your master schedule once. Reuse it across pay periods. Keep your team organized.
